

# Colorado River Ostomy Chapter UOAA

**United Ostomy Associations of America, Inc.**

**Supporting Ostomates and Their Families in Mohave County & the Tri-state Area**

December 18, 2020

Hello—This is Bob Brown from the Ostomy Support Group that has been meeting at Joshua Springs in Bullhead City, Az. Our Group has not met in person for about 9 months. We have tried Zoom meetings but so far our attendance has not been good.

Desiree & Stephane are both Nurses & are very busy with the Virus. Desiree has attended every Zoom meeting & Stephanie has made the meeting when she can. They are both committed to our group & want to continue as our advisors. I have volunteered to assist them.

The virus shots have just become available & we are hoping that we can get back to regular meeting within the next 3 to 6 months.

We have a newly refurbished building across the street from WARMC hospital on Silver Creek Rd. That has been made available to us when it is safe for us to have meeting again. It can accommodate about 30 people which would be perfect for our Group. Thank You to the Hospital.

I can help at least a little bit to set up a zoom program for you at your house or at one of the Restaurants in town. We need either a phone or a pad to set it up for you. After 1 or 2 meeting you find it's really easy to work. You can just listen in or express your questions or thoughts.

We need to pay our dues to the United Ostomy Association of America,. I am not sure of the amount but I will find out & get back to all. I am thinking in the \$20 to \$30 dollar range for the year. I think we can find help in financing our individual memberships if we need the help.

Our group has a wonderful website set up by Stephanie. I will have access information in our next letter.

I have received information books on Ostomy help & care from the Ostomy association. They also offer monthly Zoom meeting for any members of our groups. There is access to many Ostomy groups every month if you wish to follow them. Let me know.

Patty MacDonald died last Saturday. She will be missed....

I would appreciate if you could let me know your phone number, address & email address so we can keep you up to date on speakers & programs for when we get back together.

I will try to get a newsletter out every month.
