

# \*\*\* WELCOME BACK\*\*\*

## Ostomy Support Group

**First meeting is Monday, April 12th – 1PM At 2728 Silver Creek Rd. In Bullhead City**

Hello—This is Bob Brown from the Ostomy Support Group that has been meeting at Joshua Springs in Bullhead City, Az. Our Group has not met in person for about 14 months. We have tried Zoom meetings but so far our attendance has not been good.

Desiree & Stephane are both Nurses & are very busy with the Virus & Desiree has been working with the children at the border crossing in Texas. Desiree has attended every Zoom meeting & Stephanie has made the meeting when she can. They are both committed to our group & want to continue as our advisors. I have volunteered to assist them.

## NEW MEETING ROOM

We have a newly refurbished building across the street from WARMC hospital on Silver Creek Rd. that has been made available to us that can accommodate about 30 people which would be perfect for our Group. **The building address is 2728 Silver Creek Rd. This is directly across from the hospital main entrance. The building is on the south side of the road.**

**We will be doing social distancing and wear our masks for the safety of the group.**

Thank You WARMC Hospital for letting us use the building..

I have received information books on Ostomy help & care from the Ostomy association. They also offer monthly Zoom meeting for any members of our groups. There is access to many Ostomy groups every month if you wish to follow them. Let me know.

I would appreciate if you could let me know your phone number, address & email address so we can keep you up to date on speakers & programs.

I will try to get a newsletter out every month.

Looking forward to seeing everybody
